Patmark®-mini

Are you still using

a hammer?

Patmark-mini is called
“Digital Punch”
in another word.
The most innovated of marking tool delivers you safe with hammer-free experience needless of exhausting.

Programming via an app or Windows software enables new dimensions in marking technology.

With its 2.3 kg* you can mark almost any location without tiring!

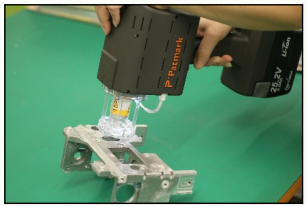
*(incl. Battery)

Replace your beat numbers with our inexpensive Patmark mini and benefit from its advantages!

No more risk of injury from the hammer!

Fast programming!

Special characters simply marked!



Works in all directions

Patmark

Mobile dot pin marker

flexible

fast

simply

Like the Patmark mini, the larger model is flexible and easy to use.

With our cost-effective Patmark, even longer markings can be applied to your component easily and quickly.

The 2.9 kg* of the Patmark are light and safe in your hand!

*(incl. Battery)

WE HAVE POWER

The 25.2 V battery allows hours of marking !

Markingfield 33 x 15 mm

Illuminated Markingfield — all PM Models

Patmark on the tool balancer — all PM Models

Patmark®-plus

THE BIG ONE

Large markingfield Efficient & cost-efficient marking solution

The Patmark plus is just as flexible and easy to use as the smaller models.

It has an extra large marking field for longer markings!

Up to 27 characters
in font size 4 mm

In smaller font size also more characters!

Unique quality

Can also be used without battery!

all PM Models

Patmark Programming

Android / iOS App

Simply download the Patmark App from the App Store & connect your device to the Patmark via WIFI.

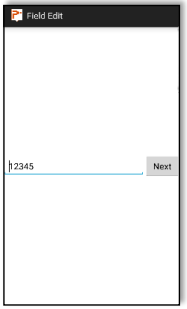
Open the Patmark App and start typing.

Set the marking parameters in 3 easy steps!

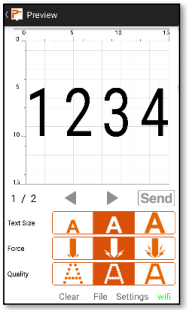
Download on the App Store

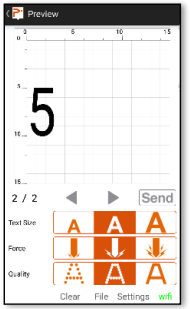
ANDROID APP ON Google play

1. enter text



2. set parameters





3. mark!

Windows Software

The Patmark Windows software can also be used with WIFI or a USB connection! The software offers you many more features like multiple line marking, logos, QR and DM codes, serial numbers or calendar markings.

By using the PM Windows software you can also expand the memory capacity. (255 files)

To further simplify data entry, the PM WIN software offers a barcode scan function and a CSV function. The data can be transferred to the Patmark by barcode scan or by reading a CSV file.

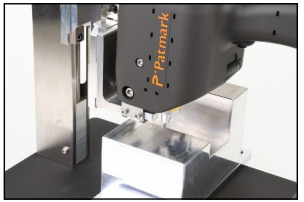
Unique accessories Rotary-S

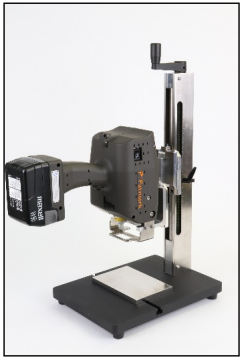
Column incl. adapter for PM mini or PM

Coming soon for Patmark plus



Height-adjustable column for stationary use of the Patmark series

For marking smallest components!



Can be used with and without marking guide.

Problem-free marking in a recess!

Rotary-S

(column is required)

Our manual rotary axis Rotary-S enables a circumferential marking of your cylindrical components very easily and economically!

An integrated pause function and the manual rotation of the component allows a high quality marking on the circumference. Without automatic rotary axis!

The Rotary-S is best suited for small series of cylindrical components.

Technical changes, misprints & errors excepted. Offer valid for 30 days. All prices net plus VAT.
